Profile

Computer Science undergraduate at the Informatics Institute of Technology (affiliated with University of Westminster, UK) with hands-on experience in full-stack and mobile development using JavaScript, Python, and Dart. Built responsive applications with Flutter, FastAPI, and Supabase, integrating RESTful APIs and cloud backend services. Seeking an internship to gain industry experience and apply technical skills in real-world development environments.

Education

BSc (Hons) Computer Science	2024 – present
Informatics Institute of Technology (IIT), affiliated with University of Westminster	
Foundation Certificate Programme	2023 – 2024
Informatics Institute of Technology	Sri Lanka
St. Paul's Girls' School	2020 – 2022
	Milagiriya, Sri Lanka
GCE Ordinary Level (O/L)	2009 – 2019
Samudradevi Balika Vidyalaya	Nugegoda

Skills

Languages — Python | Java | JavaScript | Dart | PHP

Frontend & UI/UX — React | Flutter | HTML5 | CSS3 | Bootstrap | Figma | Responsive Web Design

Backend & APIs — Node.js | Express | JAX-RS | FastAPI | REST APIs | SQLAlchemy | JWT Authentication
| CRUD Operations | Maven

Databases — PostgreSQL | MySQL | MongoDB | Supabase | Firebase

Testing — Jest | React Testing Library | Flutter Widget Testing | PyTest | JUnit

Tools & Technologies — Git | GitHub | Postman | IntelliJ IDEA | Vite | Microsoft Office (Word, Excel, PowerPoint)

Deployment & Cloud — Render | Vercel | GitHub Pages | Apache Tomcat

Core Concepts — OOP | Client-Server Architecture | REST API Design | System Architecture | API Integration | Debugging

Soft skills — Time Management | Adaptability | Communication & Documentation | Team Collaboration & Leadership | Problem Solving

Projects

MoodSync – AI Powered Mood Tracking Application

UI/UX & Frontend Developer | Software Development Group Project | Flutter, Dart, FastAPI, Supabase, SQLAlchemy, JWT, GitHub Actions

- **Website:** <https://moodsyncapp.com/> 
- **GitHub Repo:** <https://github.com/Melissa1211/MoodSync-App.git> 
- Designed wireframes and UI layouts using Figma and developed responsive frontend screens using Flutter and Dart with dynamic mood-based theming
- Built backend REST API endpoints and CRUD operations for User, Mood, and Journal management using FastAPI, Python, and Supabase (PostgreSQL) with JWT authentication
- Integrated SQLAlchemy ORM for database interactions and wrote automated UI test cases using Flutter's widget testing framework
- Managed version control and CI/CD pipelines via Git and GitHub Actions in an Agile team environment

Estate Agent Property Search App

Coursework Project | React, JavaScript, Vite, Jest, React Testing Library

- **Live at:** <https://Sapoorna.github.io/estate-agent-app> 
- **GitHub Repo:** <https://github.com/Sapoorna/estate-agent-app.git> 
- Developed fully responsive single-page application for searching and managing property listings with advanced filtering options
- Implemented interactive image gallery with thumbnail navigation and drag-and-drop favourites management
- Ensured security with CSP headers and XSS protection
- Achieved full test coverage using Jest and React Testing Library

Traffic Data Analyzer

Coursework Project | Python, Tkinter, CSV, File I/O

- **GitHub Repo:** <https://github.com/Sapoorna/traffic-data-analyzer.git> 
- Developed a Python program to analyze traffic data from CSV files
- Performed basic statistical analysis and visualized traffic patterns using histograms (Tkinter)
- Exported processed results to a text file for reporting

Portfolio Website

Personal Project | HTML, CSS, JavaScript, Responsive Design

- **Live at:** <https://sapoornajanani.vercel.app/> 
- **GitHub Repo:** <https://github.com/Sapoorna/Personal-Portfolio.git> 
- Designed and built a fully responsive portfolio website to display academic and personal projects
- Ensured accessibility and usability with semantic HTML and modern CSS
- Demonstrated frontend skills with clean, maintainable code and interactive UI elements

Flower Shop Web Application (Full-Stack)

Personal Project | Node.js, Express, MongoDB, HTML, CSS, JavaScript

- **Live at:** <https://flower-shop-grvz.onrender.com/> 
- **GitHub Repo:** <https://github.com/Sapoorna/flower-shop.git> 
- Developed a responsive full-stack e-commerce platform with a Node.js/Express backend and dynamic frontend
- Implemented product listings, shopping cart functionality, and simulated checkout using RESTful principles
- Structured with environment-based configuration and modular routing for scalability
- Deployed on Render with MongoDB Atlas for database management

Coffee Shop Website

Personal Project | HTML, CSS, JavaScript, localStorage

- **Live at:** <https://coffee-shop-website-red.vercel.app/> 
- **GitHub Repo:** <https://github.com/Sapoorna/Coffee-shop-website.git> 
- Developed a fully responsive frontend website featuring a dynamic product catalog and interactive shopping cart
- Implemented cart functionality using JavaScript and localStorage to simulate user sessions and persist data
- Ensured cross-device compatibility and clean UI/UX design for seamless customer interaction

Certificates

Web Design for Beginners

Front-End Web Development

Server-side Web Programming

Python for Beginners

Centre for Open & Distance Learning (CODL), University of Moratuwa (2025)

Learning Python (2020)

LinkedIn Learning – Jan 2025

Fundamentals of Digital Marketing

Google Digital Garage

Completed: 2025

Certificate Course in English Language (Higher Level)

Institute of Human Resource Advancement (IHRA), University of Colombo

Completed: 2023

Hult Prize Qualifiers Round

MoodSync | Participant | Informatics Institute of Technology Sri Lanka February 2026

Languages

French Language

DELF A1 & A2

Alliance Française – (2024, 2025)
